As a multi-disciplinary service provider, Oztopia possesses the dynamic capability to journey with the clients from project inception through to hand over, on-going operations and maintenance.

Our proven and trusted client relationships combined with our hard-earned experience particularly in remote areas has formed the basis for our success as we continue to deliver excellence in all aspects of electrical work. Our in-house workshop operations and processes conform to ISO compliance and the highest safety standards. From concept to commissioning, our staff are integral to the success of each project, working seamlessly within our operations to provide the reliability of service provision and response required to meet project development milestones, timelines and budgets.

Oztopia staff and sub-contractors comply to our rigorous standards of accreditation and performance delivering capabilities in mining and resources, oil and gas, hazardous areas, industrial, commercial, telecommunications, security systems, research and development of complex electrical systems.

### ELECTRICAL:
- HV / LV Construction & Maintenance
- HV / LV Cable Terminating & Jointing
- Cable Tray / Ladder Design Fabrication and Installation
- Motor Control Centre Building, Installation, Commissioning
- Explosive Environment Hazardous Area (EEHA) Installations
- Alternative Power Supply Design & Distribution Management
- Network, Generators, UPS, PV Solar System
- Pit & Pipe Installation & Cable Hauling
- Pre -Commissioning, Wet & Dry, Point To Point Testing.
- Testing, Verification and Certification
- Complete Document Control, ITP's, FAT, MDR's, MMO's, As Built, Red Line.

### INSTRUMENTATION:
- Instrumentation & Control Design, Installation and Verification
- Process Automation DCS, PLC, SCADA, PID
- Instrument Installation, Calibration.
- Instrumentation Cable Installation, Termination.
- Intrinsically Safe Design, Installation & Certification.

### COMMUNICATION:
- Fibre Optic Cabling, MM, SM, Design, Installation & Certification
- Structured Cabling Cat6, Cat7, UTP, STP, FSTP, Design, Installation & Certification
- PTP Wireless Network Design Installation & Certification.
- Data Centre Design, Construct.
- UPS Design, Installation & Maintenance
- Security Systems, Controlled Access, CCTV
- Accredited Pit Pipe & Cable Hauling

### ALLIED SERVICES:
- Total Plant & Operation Power System Analysis
- Predictive Maintenance
- Thermography
